Dr. Yuwen Gu

Dear Yuwen:

Here is how the set of files should be used:

- UConnLH.cls: the class file for UConn Stat letter head
- letterinfo.sty: personalized information
- UConn-stacked.png: UConn logo
- SampleLetter.tex: tex source of an example letter that generated this letter
- sampleSig.png: sample signature image (file name can be changed in letterinfo.sty); this file is rescaled to one with height 1cm (in UConnLH)

To generate the pdf file of this letter, use

```
pdflatex SampleLetter
```

Please let me know if you have questions.

Sincerely yours,

Jun Yan
